SUMMARY:

MERN stack developer with five independently built full-stack projects and internship. Strong in React, Node.js, Express, and MongoDB, with a focus on secure authentication and clean API design. Looking to bring that same initiative to a junior developer or internship role.

TECHNICAL SKILLS:

Core: React.js, Node.js, Express.js, MongoDB, MySQL

Also comfortable with: JavaScript (ES6+), Tailwind CSS, JWT Auth, REST APIs, Jest, Git/GitHub (PR workflow)

Currently learning: TypeScript, CI/CD (GitHub Actions)

EXPERIENCE:

- Freelance MERN Stack Developer — Self-Employed **Sep 2025 – Present**
- Intern MERN Stack Developer — DeCodes lab **May 2026 – June 2026**
 - Assisted in building web applications using React.js and Node.js
 - Collaborated with team on API development

PROJECTS:

- ✚ **Ease Shop – Full Stack E-Commerce Website FYP**
Node.js, Express, MySQL, JWT | E-commerce with product management, cart, orders, and admin panel
GitHub: <https://github.com/binishfaq/Full-Stack-E-commerce-Website>
- ✚ **Expense Tracker – Full Stack MERN Application**
React, Node.js, Express, MongoDB, JWT | Personal expense tracker with secure authentication, category-based organization, and full CRUD for expenses
GitHub: <https://github.com/binishfaq/login-system->
- ✚ **DevBlog - MERN Blog Platform**
React, Node.js, MongoDB, JWT, Tip Tap | Blog with auth, rich text editor, dashboard, comments.
GitHub: <https://github.com/binishfaq/Expense-Trcaker>
- ✚ **URL Shortener – Full Stack Application**
React, Node.js, MongoDB, Vite, Axios | URL shortening, click tracking, copy to clipboard, CRUD
GitHub: <https://github.com/binishfaq/ShorternerUrl>

EDUCATION

Bachelor of Science in Information Technology — MNS University of Agriculture, Multan
CGPA: 3.38/4
